

## T3-BSA

### Description

<b>Product name</b>	T3-BSA
<b>Source</b>	Synthetic

### Specifications

<b>Format</b>	Liquid
---------------	--------

### Stability and Storage

<b>Storage</b>	Store at -20°C, avoid repeated freeze/ thaw cycle.
<b>Buffer</b>	0.02M PBS, PH7.2
<b>Stability.</b>	Aliquot and store at -20°C for 24 months.

### General information

<b>Function</b>	<p>Triiodothyronine is a type of thyroid hormone abbreviated T3. Triiodothyronine can be divided into TT3 and FT3 due to its different binding state to protein. Serum TT3 concentration reflects the effect of thyroid on peripheral tissues, and is an important index for identifying early hyperthyroidism and monitoring recurrent hyperthyroidism. FT3 is not affected by thyroid hormone binding protein, and directly reflects thyroid function. Its sensitivity and specificity are significantly higher than those of TT3.</p>
